As a Council, we are continually striving to prevent litter and support communities to combat a variety of local environmental issues.

A fantastic way to help improve your local area is to organise a community clean-up.

A clean-up isn’t just about litter picking; it could also be painting and planting. It’s an easy way to help make a difference and to take pride in where you live.

All you have to do is:
- choose what you want to do and where
- let us know what you’re going to do
- plan your clean-up

Choosing what you want to do and where

You should look to choose an area in your neighbourhood that you could clean-up. You can be as ambitious as you like; for example, you could choose to repaint some benches, plant flowers or litter-pick a small area.

You may wish to choose

- publicly accessible land or open spaces, such as roads, pavements, alleyways or verges, walls and streets
- a community hall or building and its grounds
- private land where the public have access, such as forecourts, pathways to stations and housing association open areas

If you would like further details, please contact our Community Development Team on 01708 433 508 or email events@havering.gov.uk

What we can provide

- help and advice about your clean-up
- posters to promote your event
- rubbish and recycling sacks
- work gloves
- litter picker equipment
- hi-visibility vests
- brooms
- shovels
- removal of all waste collected

We are working in partnership with the Havering Volunteer Centre to provide volunteering opportunities for people in their local area. Havering Volunteer Centre can contact people in your area who have expressed an interest in clean-ups to see if they would like to take part.
